EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Eugene Mar on Tuesday May 24, 2005.

The application has been amended as follows: in claim1, between lines 6 and 7 insert --a contact plate;--.

2. The following is an examiner's statement of reasons for allowance:

Claim 1 has been found to be allowable over the prior art of record because the prior art fails to teach or suggest a paper shredder with auxiliary switch configured on a perimeter of the entrance of the top cover, a pressure rod is configured on one end of the auxiliary switch, and passes through an inner side of the top cover, and is further sleeved in a spring; pressing down on the auxiliary switch compresses the spring in addition to forcing the pressure rod to pass through an aperture defined in a flat plate, thereupon, the contact plate activates a contact switch; which then actuates the motor to drive into motion the rotary cutters, one end of a contact plate connects to a shaft lever, and one end of a spindle of the shaft lever inserts into a turning axle, in combination with the remaining limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
